MATTHEW BENJAMIN

Software Engineer

SKILLS

ES2015+, React/Redux, Responsive CSS, Semantic HTML, Node.js, Express.js

EXPERIENCE

Northwestern Mutual, Milwaukee, WI — *Software Engineer*

2016 - PRESENT

- Full Stack Javascript Development.
- Built complex, animated, and cross-browser user interfaces using React/Redux, responsive CSS, and semantic HTML.
- Developed secure microservices for user logins with Node.js & Express.js.

Udacity — *Code Reviewer*

2015 - PRESENT

- Confirmed that projects from introductory programming students met technical specifications.
- Provided actionable feedback with clear explanations of technical subjects.
- Reviewed nearly 1500 projects.

Seoul, South Korea — *English Language Instructor*

2010 - 2015

- Developed lesson plans and conducted interactive classes.
- Communicated new ideas across cultural barriers.
- Set academic goals and learning plans for students.
- Utilized conflict resolution techniques for elementary school students.

PERSONAL PROJECTS

Concert Map — **https://github.com/MatthewBenjamin/concert_map**

2016

- Single page app built with Knockout.js and the Google Maps API.
- Asynchronously loads 100 upcoming concerts for a chosen area.
- Deployed with an automated build process using Gulp.js and Require.js.

EDUCATION

Udacity — *Front End Developer*

Nanodegree, 2015

University of Connecticut — *Psychology: Research Emphasis*
